Application for Litter Registration into The Registry & Listing with The American Pit Bull Terrier Historical Society

PLEASE READ THE FOLLOWING CAREFULLY:

1. Both the Sire and Dame of a Litter must be registered and/or on file with The Registry and their pedigrees verified through the seventh (7) generation prior to the registration of a Litter.
2. If the Sire and Dame are not properly registered with The Registry, then fill out the necessary Applications for Single Dog Registration on the Sire and Dame and submit them along with the Application for Litter Registration.
3. The fee for filing a Sire and Dam, along with a Litter is \$10.00 each for the Sire and Dame (Total of \$20.00 if done at the same time as a Litter) and then \$5.00 processing fee for the litter, plus \$1.00 for each puppy.
4. Please remember to name your puppies carefully. It is the policy of The Registry not to change the "Registered Name" of a dog given by the breeder or owner of a litter. (Exception) The "Registered Name" of a dog may be changed with written permission from the breeder or owner of the litter. A "Call Name" may be added at any time. If you prefer that the new owner (s) assign a "Registered Name" then you may assign a number or letter to each pup. (i.e. Puppy 1, 2, 3, or Puppy A, B, C. etc.)

NOTE: Litters over six (6) months old must be individually "Open Registered", using the Application for Registrations form.

NOTE: If the owner of the Sire is not the same as the owner of the Dame, then the Stud Service Certificate provided on the back of this form must be completed and signed by the owner of the Sire of this litter.

The Registry reserves the right to void any papers, at any time, in the event that fraudulent application and/or protest of purebred status are proven. Any person (s) guilty of submitting fraudulent information shall be subject to be removed from The Registry as a member and banded from all future rights to register with The Registry.
